

Training Resources - List of courses and services from ABCC

ACT WorkKeys System (Job Profiling and Assessments) – was developed to assist employers in identifying tasks that are the most critical to job performance, hiring the most qualified workers, and focus training dollars to gain the most from your training, both for new and incumbent employees. Job Profiling and Assessments are generally available (for a varying fee) at many SC Technical Colleges and NC Community Colleges. As a member service, ABCC will conduct a Job Profiling session for \$500.

Apprenticeship, HVAC

Apprenticeship, Plumbing

Blueprint reading

CQM – Construction Quality Management – is needed to work on a Department of Defense (DOD) facilities. CQM is a partnering effort between the government and the contractor. The purpose of this training is to familiarize all quality control personnel and other contractor management personnel with CQM policies, requirements, and procedures. In accordance with the U.S. Navy – Naval Facilities Engineering Command (NAVFAC) and the U.S. Army – Corps of Engineers (USACE), the Contractor Quality Control (CQC) System Manager (at minimum) on all NAVFAC and USACE administered construction contracts must have successfully completed this certification course no later than 60 days following notice to proceed. Other construction personnel for which this training is recommended: Project Managers, Superintendents, Quality Managers, and others who may become involved with quality control systems on a DOD site. The certificate issued upon successful completion of this course is good for five years.

Incumbent Workforce Development grant (NC) - North Carolina's Incumbent Workforce Development Program under the federal Workforce Investment Act broadens the scope of the state's existing incumbent worker initiative. An Incumbent Worker is an employed individual who is served with statewide Workforce Investment Act funds. The Program provides funding (up to \$37,500/yr, lifetime \$50,000) to established North Carolina businesses to provide educational and skills training for current workers. It is designed to benefit businesses by enhancing the skills of employees, thereby increasing employee productivity and the potential for company growth. Training in portable skills results in a more highly skilled and versatile workforce that contributes to North Carolina's ability to attract new business and creates an environment conducive to expansion. As a member service, ABCC will help you

write the application including a training program required as part of the application process.
