

Safety Program Template

This template and the resources listed on www.abccarolinas.org were made available for those companies who need help designing or improving their safety programs. The template and guidelines are not intended to be a complete safety program; each company will need to customize for their needs and projects. A mentor is available for guidance.

Testimonials:

“Edifice, Inc. is excited to have this manual available to all our subcontractors to use for their safety program.”
-Brad Edwards, Edifice, Inc.

“I would recommend any contractor or specialty contractor in need of a safety program or an update on an existing program to consider the ABC’s as a great start point.”
- Chad Hart, Choate Construction
